**Research Fees:** Evergreen-Washelli charges **\$10.00 per name** for information requested with a limitation of 60 minutes search time per name, which is adequate for almost all searches. All searches are made of Evergreen-Washelli records only. All genealogy requests are answered by *mail only*. They are completed in the order in which they are received and will be mailed back to you within six-to-eight weeks or less.

**Digital Photography:** If you would like a color digital photograph of a family lot, family monument, or headstone (provided there is one), there is a \$10.00 charge for the first photo on a lot. Additional photos taken on the **same lot** are \$2.00 each. Please specify **exactly** what you would like a photograph of and the quantity **on a separate sheet of paper**. We prefer to **email** all photos but a color paper copy is also available upon request.

**Please check the appropriate statement(s) below:**

\***Credit Card Payments:** your credit card billing address must match the address you listed above.

\*\***Security Code:** the last 3 numbers printed on the back of your credit card. Your order **cannot** be completed without this number.

We will attempt to provide answers to all of the questions on the next page of this form. Due to periods of incomplete data (information not provided to the cemetery by family members during previous decades), not all data desired is available. Therefore, your request may have all of the information sought, some of it, or in some instances, no information at all. No refund will be issued unless the person you are seeking information on is *not buried* in Evergreen-Washelli. (We are sometimes asked why we charge a fee if no information can be provided. Our staff spends considerable time, and usually more time, searching all our record sources looking for any information we can provide.)

**NOTE:** As a general rule, we **cannot** provide the names of parents, children or other relatives because family relationships have not been recorded in our records. If a person is buried on a family lot, we can tell you who is buried on the lot with them.

**\*Single Interment Sections or Lots** are comprised of **single grave spaces**. There are usually no family members buried by them, and more often than not, birth and death records were not kept on the **early** single interments. These graves may be marked with a headstone, but many are not. It is not uncommon with the early single interments to find some that were later moved to a family lot.

**\*\*Family Lots** are comprised of at least two, and sometimes many, grave spaces grouped together. Family members are buried together on these lots and frequently they have a family monument and individual headstones marking each grave on the lot.
